14th Oncology Update: Advances and Controversies
Steamboat Springs, Colorado
January 15-18, 2016

Friday, January 15, 2016

Registration: Begins at 2:00 pm

Plenary Session: 4:00 pm - 6:00 pm

Moderator: Merrick I. Ross, MD

Current Status and Future Directions of Checkpoint Blockade Immunotherapy Across Tumor Types
Patrick Hwu, MD

Nanoparticle Therapy: Ready for Prime Time?
Steven A. Curley, MD

Pros and Cons of Proton Therapy: Worth the Expense or Just Expensive?
Andrew K. Lee, MD

BREAK: 10 Minutes

Next Generation of Phase 1 Drug Development Based on Biomarker Discovery
Funda Meric-Bernstam, MD

Are Ascopal Effects Reproducible or Just Anecdotal?
Stephen Hahn, MD

Disease Site Session I: Thoracic 6:10-9:00pm

Moderator: Stephen G. Swisher, MD

SBRT for Early Stage NSCLC: Does the Data Support a Change in the Standard of Care?
David C. Rice, MD

Targeted Therapy for Unresectable Lung Cancer: Current Status and Future Directions
John V. Heymach, MD, PhD

Organ Preservation in Locally Advanced Esophageal Cancer: Is This a Realistic Goal?
Wayne L. Hofstetter, MD

BREAK: 10 Minutes
Application of Robotic Surgery in Thoracic Oncology
Reza J. Mehran, MD

Case Presentations/Panel Discussion
Moderator: Stephen G. Swisher, MD
Panel: All Speakers and Quynh –Nhu Nguyen, MD

Welcome Reception: 9:00-10:00 pm

Saturday, January 16, 2016

Disease Site Session II: Cutaneous Oncology 6:45 am - 9:15 am

Moderator: Merrick I. Ross, MD

Managing SLN Positive Melanoma: Is it Time to Abandon Completion Lymph Node Dissections?
Jeffrey E. Gershenwald, MD

Systemic Therapy for High Risk Melanoma: Adjuvant or Neo-adjuvant?
Kenneth F. Grossmann, MD, PhD

Disseminated BRAF Mutated Melanoma: Should Targeted Therapy be First Line?
Patrick Hwu, MD

BREAK: 10 Minutes

Is There a Future for Intralesional Therapy in Advanced Melanoma?
Robert H. Andtbacka, MD

Case Presentations/Panel Discussion
Moderator: Merrick I. Ross, MD
Panel: All Speakers; Joel Claveau, MD; Ana M. Ciurea, MD; Victor G. Prieto, MD, PhD

Meet the Professor: 9:30 am -11:45 am

Disease Site Session III: Breast Oncology 4:30 pm - 7:30 pm

Moderator: Kelly K. Hunt, MD

Genetic Testing: Appropriate Candidates And Implications for Prophylaxis and Breast Cancer Treatment*
Jennifer Litton, MD

Evolving Techniques in the Surgical Management of the Regional Nodes
Kelly K. Hunt, MD
Nodal Basin Irradiation: Local Regional Disease Control or Survival Benefit?
Thomas A. Buchholz, MD

BREAK: 10 Minutes

Advances and Controversies in Breast Reconstruction
David M. Adelman, MD, PhD

What’s New in Triple Negative and Inflammatory Breast Cancer Management?
TBD

Immunotherapy for Breast Cancer: Vaccines and Evolving Strategies
Elizabeth A. Mittendorf, MD, PhD

Case Presentations/Panel Discussion
Moderator: Kelly K. Hunt, MD
Panel: All Speakers and Aysegul A. Sahin, MD

Sunday, January 17, 2016

Disease Site Session IV: Urology 7:00 am - 9:30 am

Moderator: Christopher G. Wood, MD

Debate #1: Neoadjuvant Chemotherapy For cT2 Bladder Cancer

Pro: Neema Nava, MD

Con: Jay B. Shah, MD

Debate #2: Lymph Node Dissection Is a Necessary Part of a Radical Nephrectomy for Locally Advanced Renal Cell Carcinoma

Pro: Bradley C. Leibovich, MD

Con: Jose A. Karam, MD

BREAK: 10 Minutes

Neoadjuvant Therapy for Locally Advanced Prostate Cancer: Current Status In 2016
Brian F. Chapin, MD

Immune Therapy for Bladder Cancer
Neema Navai, MD
Case Presentations/Panel Discussion

**Moderator:** Christopher G. Wood, MD

**Panel:** Brian F. Chapin, MD; Jose A. Karam, MD; Bradley C. Leibovich, MD; Neema Navai, MD; Jay B. Shah, MD; Nizar M. Tannir, MD

*Meet the Professor – 9:30 am-11:30 am*

**Disease Site Session V: GI Malignancies 4:30pm-7:30pm**

**Moderator:** Robert A. Wolff, MD

**Adjuvant Therapy for Colorectal Cancer: Current Controversies**
- TBD

**Minimally Invasive Surgical Approaches to Rectal Cancer: Oncologically Safe?**
- Brian K. Bednarski, MD

**Surgery for Colorectal Liver Metastases: Are the Indications Expanding?**
- Steven A. Curley, MD

**BREAK: 10 Minutes**

**Novel Molecular Signatures in Pancreas Cancer: Implications for Prognosis and Treatment**
- Jason B. Fleming, MD

**Systemic Therapy for Resectable Pancreas Cancer: Adjuvant or Neo-adjuvant?**
- Robert A. Wolff, MD

**New Frontiers in Radiation Therapy for GI Malignancies**
- Christopher Crane, MD

**Case Presentations/Panel Discussion**
- **Moderator:** Robert A. Wolff, MD
- **Panel:** All Speakers

*Monday, January 18, 2016 6:30am-10:30am*

**HPV symposium: From the Oris to the Anus**

**Moderator:** Erich M. Sturgis, MD

**Prognosis and Treatment of HPV Head and Neck Cancer**
- Erich M. Sturgis, MD

**Cervical Cancer: Public Health Issues and Vaccines**
- Kathleen M. Schmeler, MD
Anal Cancer: Current Approaches and Future Directions
TBD

BREAK: 10 Minutes

Multi-modality Treatment for Ovarian Cancer: Current Controversies
Michael Frumovitz, MD

Outcomes, Toxicity, and Palliative Care

Moderator: Brian D. Badgwell

Integrating Cancer Specific Outcomes Measures into Practice*
Karl Bilimoria, MD

Enhanced Recovery after Thoracic Surgery*
Reza J. Mehran, MD

Novel Approaches to Lymphedema*
Edward I. Chang, MD

BREAK: 10 Minutes

Diagnosis and Management of Dermatologic Toxicity of Novel Targeted and Immune Therapies
Joel Claveau, MD

Palliative Care Symposium

Novel Approaches to Pain Management*
TBD

Radiation Therapy of Bone Metastases*
Quynh-Nhu Nguyen, MD

Palliative Surgery: How to Measure Success*
Brian D. Badgwell, MD

ADJOURNMENT

*Presentations are appropriate for ethics credit
