“Applying Holistic Behavioral Interventions for Maximizing Outcomes in Cancer Survivorship”

Dr. Daniel Carlos Hughes, PhD – Assistant Professor, Institute for Health Promotion Research, The University of Texas Health Science Center – San Antonio
Thursday, October 15, 2020
12:00 – 1:00 pm
Location: Zoom Webinar ID 876 0903 5945
Password 043840

The Center for Energy Balance in Cancer Prevention and Survivorship, of the Duncan Family Institute, facilitates and conducts state-of-the-science research to understand the relationship between activity, nutrition, obesity and cancer, and uses this knowledge to optimize interventions to decrease cancer risk and improve cancer outcomes. The Center sponsors collaborative research, transdisciplinary educational opportunities and seminars to create, produce and disseminate innovative and practice-changing research results. The Center for Energy Balance in Cancer Prevention and Survivorship’s monthly trans-disciplinary research seminar aims to bring researchers from multiple disciplines together to examine different energy balance-related topics. Center for Energy Balance in Cancer Prevention and Survivorship is directed by Karen Basen-Engquist, Ph.D., M.P.H and Joya Chandra, Ph.D.
