Keynote Address:
Assessment, Implication and Treatment of Low Lean Mass: A Clinical Practice Perspective
Presented by: Carla Prado, PhD, FTOS

During this presentation, Dr. Prado will discuss the importance of body composition assessment in various patient types across the continuum of care. She will discuss how the focus of nutrition therapy should be to sustain and enhance the body’s lean mass compartment, and how this should be achieved through the combination of several key nutrients essential for muscle health. The presenter will identify commonly used available techniques and technologies to assess body composition in clinical settings, and will discuss recently proposed nutrition interventions to optimize body composition. (Not for CE)

Dr. Carla Prado is an Assistant Professor at the University of Alberta in Canada and a Campus Alberta Innovates (CAIP) Chair in Nutrition, Food and Health. She is an expert in assessing nutritional status through the precise measurement of body composition and energy metabolism. Her research has shown for the first time the prevalence and clinical implications of sarcopenic obesity (concurrent appearance of low muscle and high fat) in cancer, and has provided evidence of the independent effect of body composition on cancer recurrence, treatment and survival. The focus of her current research program is to develop targeted interventions for the prevention and treatment of sarcopenic obesity in patients with diverse chronic conditions.

Poster Presentations

A Collaborative Program to Develop a Standardized Malnutrition Documentation and Communication Process Utilizing the Consensus Statement Guidelines for Malnutrition Assessment in an Oncology Setting
The University of Texas MD Anderson Cancer Center

A Nocturnal Volume-Based Feeding Protocol in Critically Ill Burn Patients: Part 2
Rya Clark, RD, LD, CNSC
Memorial Hermann-Texas Medical Center

Achieving Early Enteral Nutrition in the ICU through Multidisciplinary Collaboration
Jenny Lee, MS, RD, LD, CNSC
Kristen Tidwell, MS, RD, LD, CNSC
Memorial Hermann-Texas Medical Center

Assessing the Change in Lean Body Mass in Oncology Patients that are At Risk for Malnutrition
Renee Stubbins, PhD, RD, LD, CSO
Houston Methodist Hospital

Decreasing Inappropriate Usage of Parenteral Nutrition in the TSICU at Ben Taub Hospital
Breanne Durbin, MS, RD, LD
Ayesha Kabir, MS, RD, LD
Dana Wilson, RD, LD
Harris Health System; Ben Taub Hospital

Development of Oncology-Specific Malnutrition Assessment, Documentation and Coding Process at a Comprehensive Cancer Center
The University of Texas MD Anderson Cancer Center

Implementation of an Electronic Detailed Written Order Process at an Oncology Center in Cooperation with Durable Medical Equipment Partners for Improved Continuity of Care
The University of Texas MD Anderson Cancer Center

Improving Malnutrition in Pre-Liver Transplant Patients
Holly Dittmar, MS, RD, LD, CNSC
Renee Walker, MS, RD, LD, CNSC, FAND
Michael E. DeBakey VA Medical Center

Outcomes of Teduglutide Treatment in Patients with Short Bowel Syndrome
Gaby Gardner, RD, LD, CNSC
Memorial Hermann-Texas Medical Center

Enteral Nutrition Order Set to Ensure Optimal Nutrient Delivery
Janelle Lustgarten, MS, RDN, LD
Harris Health System; Lyndon B. Johnson Hospital

Volume Based Feedings in Medical and Cardiac ICU: Aiming to Improve Early Initiation and Provisions
Katie Braun, MS, RD, CNSC
Michael E. DeBakey VA Medical Center

2016 Malnutrition Symposium
@ The University of Texas MD Anderson Cancer Center
Hickey Auditorium
1515 Holcombe Blvd, Houston, TX 77030

Thursday, September 29, 2016

INTENDED AUDIENCE:
MDs, RDs, RNs, & CCMs

REGISTER ONLINE:

RD ATTENDEES MAY RECEIVE UP TO 5 FREE CPEUs

Keynote Speaker Sponsored By:
Malnutrition Symposium Agenda

7:30 AM Registration/Breakfast/Poster Presentations

8:45 AM Opening Remarks;
   The University of Texas
   MD Anderson Cancer Center

9:00 AM Improving Malnutrition Diagnosis & Coding
   through Interdisciplinary Collaboration
   (For CE)

10:00 AM Break

10:15 AM Pediatric Malnutrition Assessment: Putting
   New Definitions into Practice (For CE)

11:15 AM Break

11:45 AM Keynote Address & Lunch (Not for CE)

12:45 AM Break

1:00 PM Enteral Nutrition in the Intervention of
   Malnourished Patients (For CE)

2:00 PM Break

2:15 PM Overcoming Challenges in Performing
   Nutrition Focused Physical Examination
   (For CE)

3:15 PM Closing Remarks
