Teaching Communication Skills:
Psychiatry’s Unique Role

Walter F. Baile, M.D., Professor, Behavioral Science

After attending this activity, the target audience of Physicians, Psychologists, Physician Assistants, Nurses, Case Managers, Social Workers and Chaplains should be able to:

- Describe the opportunities for teaching communication and interpersonal skills to our students and medical and surgical colleagues (Knowledge, Competence, Performance);
- Present a model to guide our teaching (Knowledge, Competence, Performance, Patient Outcomes);
- Describe ways in which simulation can be used to help students and other learners acquire communication skills (Knowledge, Competence, Performance)
