“Fatty Diet and the Risk for Hepatocellular Carcinoma”

Dr. Manal M. Hassan, MD, MPH, PhD – Associate Professor, Department of Epidemiology, The University of Texas MD Anderson Cancer Center

Thursday, May 21, 2020
12:00 – 1:00 pm
Location: **VIRTUAL Zoom Webinar**
Meeting ID: 970 1154 1553
Password: 043840

The Center for Energy Balance in Cancer Prevention and Survivorship, of the Duncan Family Institute, facilitates and conducts state-of-the-science research to understand the relationship between activity, nutrition, obesity and cancer, and uses this knowledge to optimize interventions to decrease cancer risk and improve cancer outcomes. The Center sponsors collaborative research, transdisciplinary educational opportunities and seminars to create, produce and disseminate innovative and practice-changing research results.

The Center for Energy Balance in Cancer Prevention and Survivorship’s monthly trans-disciplinary research seminar aims to bring researchers from multiple disciplines together to examine different energy balance-related topics. Center for Energy Balance in Cancer Prevention and Survivorship is directed by Karen Basen-Engquist, Ph.D., M.P.H and Joya Chandra, Ph.D.
