ENERGY BALANCE
Research Seminar
Sponsored by the Center for Energy Balance in Cancer Prevention and Survivorship

“Optimizing Exercise Prehabilitation in Cancer Care”

Dr. Nathan Parker, MPH, PhD – Instructor, Department of Behavioral Science, The University of Texas MD Anderson Cancer Center
Thursday, June 4, 2020
12:00 – 1:00 pm
Location: **VIRTUAL Zoom Webinar**
Meeting ID: 940 1510 0551
Password: 043840

The Center for Energy Balance in Cancer Prevention and Survivorship, of the Duncan Family Institute, facilitates and conducts state-of-the-science research to understand the relationship between activity, nutrition, obesity and cancer, and uses this knowledge to optimize interventions to decrease cancer risk and improve cancer outcomes. The Center sponsors collaborative research, transdisciplinary educational opportunities and seminars to create, produce and disseminate innovative and practice-changing research results.

The Center for Energy Balance in Cancer Prevention and Survivorship’s monthly trans-disciplinary research seminar aims to bring researchers from multiple disciplines together to examine different energy balance-related topics.

Center for Energy Balance in Cancer Prevention and Survivorship is directed by Karen Basen-Engquist, Ph.D., M.P.H and Joya Chandra, Ph.D.
