HABLA SPANISH CLASSES
FOR MD ANDERSON EMPLOYEES

Been wanting to learn Spanish? – Now you can, at a discount!

You’ve probably already noticed how important Spanish is in your life, especially when speaking with your patients at work!

HABLA believes in helping you reach out to your Spanish-speaking clients, do your job more efficiently, and have more fulfilling connections at work and in your life. For this reason we are happy to offer all MD Anderson employees a discount to our classes.

Our Spanish classes are not far from the Medical Center (downtown, and near Bellaire/610), and we are also available to come onsite to MD Anderson. Our current offerings include general Spanish classes at all levels, and we can create a Spanish-for-Medical Professions class based on demand.

Cost for our established group classes is $275 for the general public, and $250 for MD Anderson employees.

To receive your discount, just mention MD Anderson when you register online.

Our next round of classes starts in November – for more details and to register visit www.hablahouston.com.

We are also proud to announce our partnership with the University of Phoenix. HABLA’s classes are now articulated with the University of Phoenix, which means you can take HABLA’s Spanish classes for college credit with the University of Phoenix. Contact HABLA to find out how!
